CH25 Easy Chair

The CH25 Easy Chair was one of the first chairs inspired by modern Danish design and has sustained popularity for its ease of comfort and adaptability as a simple lounge chair. It was a revolutionary contribution to structural design for its use of woven paper cord as a substitution material during the Second World War. It takes a skilled craftsman 30 hours to hand weave this pattern for the unique seat and back, resulting in an incredible lounge chair with the timeless warmth of wicker and wood.

Details

This premium Rove Concepts reproduction features:
