## CH88 Chair

The CH88 Chair is a delicate design inspired by Danish mid-century architecture. The upper part of this beautiful chair features a curved ash wood backrest which has undergone a special steaming process. The result of the carefully bent wood is a natural resting place for the back. The straight slender legs are crafted from a steel frame, and the oval seat is cushioned and upholstered in black leather. Lightweight and stackable, the CH88 Chair is versatile in both function and aesthetic, offering a perfectly minimalist design.

### Details
