## DSW Molded Plastic Side Chair Wooden Dowel Base

The DSW Molded Plastic Side Chair Wooden Dowel Base " with the acronym 'DSW' standing for Dining height, Side chair shell, Wooden dowel base " is a slight adaptation of the original DSW side chair. It has the same distinctive organically shaped polypropylene shell and Eiffel-tower inspired base, with a slightly simpler silhouette. This delightful chair ideally complements the contours of the body, and is an equally popular choice for either the home or office.
